What are the system requirements for PastPerfect Software?

PastPerfect 4.0 System Requirements:

PastPerfect should be installed on a Windows operating system. The minimum system requirements vary depending on the program version and the add-on components installed on PastPerfect as well as the number of catalog records and images entered into the software.

Hard Drive Free Space:
Program 140 MB
Data 12 MB per 1000 records

Minimum Hardware:
1 GHz Processor
512 MB RAM for Windows XP
2 GB RAM for Windows Vista
1024 x 768 Resolution color monitor
Laser or Inkjet Printer
CD-ROM Drive
Windows XP, Vista, Server 2003

Recommended Hardware:
Intel Pentium 4, 2 GHz Processor or greater
2 GB RAM for Windows XP
3 GB RAM for Windows Vista
19" Color Monitor
CD/DVD-Recordable Drive
High-speed Internet Access

Upgrade Component System Requirements

Digital Imaging/Multi-Media Hardware Requirements:
TWAIN compatible Digital Scanner or Digital Camera
CD/DVD-Recordable Drive (for Backup)
200 MB hard drive free space per 1000 images**

** Note: Images can be stored in a variety of formats that affect quality, disk storage space, and time required to display. The storage space is also affected by the size of the image.

Network Hardware Requirements:
Windows Networking
Network throughput of 100 MBPS
Wired network connection (LAN)

Scatter/Gather Hardware Requirements:
CD/DVD-Recordable Drive

If you have any questions, please contact our Support Office at (800)562-6080. Thank you for using PastPerfect!
